**Full text from Robocall sent to parents on 4/1/25:**

*“This is Principal Karen Staunton from Covington Middle School. I am calling with an important update. This morning we once again detected an unusual odor on the third floor of our building. While we do not believe this to be a safety concern at this time, we have temporarily relocated affected classrooms to allow our air quality specialists to investigate further while our students and teachers remain focused on their curriculum.*

*“We will provide an additional update as soon as we have more information to share. Thank you for your continued patience and support as we work through this together.”*
